PROFESSIONAL SUMMARYs

Motivated Software Engineering graduate with hands-on experience in IT support, frontend and backend development, and customer service systems. Skilled in Python, Flask, JavaScript, React, and modern web technologies. Experienced in building responsive web applications, REST APIs, and supporting end-users in real-world environments. Passionate about full-stack development, problem-solving, and continuous learning in software engineering.

TECHNICAL SKILLS

Backend: Python, Flask, REST APIs, SQL

Frontend: HTML5, CSS3, Bootstrap, JavaScript (ES6+), React, Tailwind CSS

Tools & Others: Git, GitHub, VS Code, Postman

Concepts: OOP, Databases (SQL), DOM Manipulation, Async Programming, Software Design

EDUCATION

Adventist University of Central Africa (AUCA)

2022 – 2026

Bachelor of Science in Software Engineering | Kigali, Rwanda

- Studied core concepts of Software Engineering including programming, databases, web development, and software design principles.
- Gained practical experience in frontend development using HTML, CSS, JavaScript, and modern frameworks such as React.
- Built foundational knowledge in backend development, APIs, and database management (SQL).
- Developed multiple academic and personal projects applying problem-solving and real-world development practices.
- Participated in group projects that strengthened teamwork, communication, and collaboration skills.

CERTIFICATIONS & TRAINING

Moringa School – Full Stack Software Engineering Bootcamp

Fev 2026 – July 2026

Remote (Kenya) | Expected Completion: July 2026 | Graduation: December 2026

- Trained in HTML, CSS, Bootstrap, JavaScript, Git/GitHub, and software engineering fundamentals.
- Built interactive web applications using JavaScript and React.
- Learned asynchronous programming, DOM manipulation, and API integration.
- Gained backend skills using Python, Flask, REST APIs, and SQL databases.
- Developed full-stack projects combining frontend and backend technologies.

Jackal Tech Externship – Software Engineering Program

May 2025 – Aug 2025

Jackal Tech Ltd | Kigali, Rwanda

- Completed a hands-on externship focused on real-world software engineering tasks]
- Developed practical experience in software development and system support
- Awarded Certificate in Software Engineering upon completion

SheCanCode Program – Frontend Development Training

Rwanda

Frontend Development

- Learned frontend development using HTML, CSS, JavaScript, and React.
- Built responsive user interfaces using Tailwind CSS.
- Practiced modern JavaScript concepts and React component-based development.
- Developed small projects to strengthen problem-solving and UI design skills.

WORK EXPERIENCE

Printing and Graphic Design | Kigali , Rwanda

2021 - 2025

- Designed and edited posters, documents, and visual materials using Adobe Illustrator and Adobe Photoshop
- Assisted customers with printing, scanning, document formatting, and computer-based services
- Managed multiple customer requests while maintaining quality and attention to detail
- Developed strong communication, customer service, and problem-solving skills

Irembo & Tax Declaration Agent | Kigali, Rwanda

2021 - 2025

- Assisted clients in accessing online government services through Irembo
- Helped customers declare taxes and process submissions to Rwanda Revenue Authority
